

The TriMetrix Job Report

7.15.03

Introduction

Instructions for Completing the TriMetrix™ Job Report

The TriMetrix Job Report is designed to analyze skills, behavior, culture and rewards necessary for superior performance in the defined key accountabilities* (see below) of any given job. Like all other assessments, the quality of the report will be directly proportional to the quality of your responses to the questions that produce it. Because of this, it is absolutely necessary for you to maintain objectivity when responding to each question, and maintain your focus on the job's key accountabilities.

Avoid basing your responses on how you think that the job "should" be performed, or how any other person has performed it in the past. Instead, imagine that the job can "talk" to you. In doing so, it will give you a completely unbiased summary of the soft skills necessary for superior performance in its defined key accountabilities. If you keep the key accountabilities in mind as you go through the assessment, you will have a much greater chance of gaining an accurate understanding of what skills are necessary for this job's superior performance.

**Key Accountabilities are a unique set of goals and key successes the job is held accountable to achieve for the business. Typically, a job has 3-5 major key accountabilities, which must be defined by the stakeholders of the job (managers and/or staff) before this questionnaire is completed.*

PLEASE REMEMBER TO RESPOND TO EACH QUESTION AS IF THE JOB IS TELLING YOU HOW IT WOULD ANSWER IT!

Responding Instructions:

The TriMetrix Job Report is made up of 3 different sections:

Section 1 - *Personal Attributes*

Section 2 - *Rewards/Culture*

Section 3 - *Behavior*

Remember, when you answer each question, ask yourself how the job would answer if it could, "talk". Carefully consider the job's response when answering every single question to get the most accurate and objective analysis of the job.

All jobs have different responsibilities. Think of the job – let the job "talk".

Section I

In this section, you will be asked to read a series of questions about the job. Each question is focused on asking you how important a variety of different soft skills are to the superior performance of the job. You will be asked to respond on the following scale:

- Very Important
